

■ 2018 Application Guidebook for Community-reactivating Cooperator Squad Members

Free lent accommodation, free choice of activity you want to do
In Yoshitomi-machi, which is the luckiest place in Kyushu because of its name (Yoshitomi means good luck and wealth), why don't you put your free idea into a concrete activity?

Yoshitomi-machi is the easternmost town in Fukuoka prefecture, located near the prefectural border with Nakatsu city, Oita prefecture.

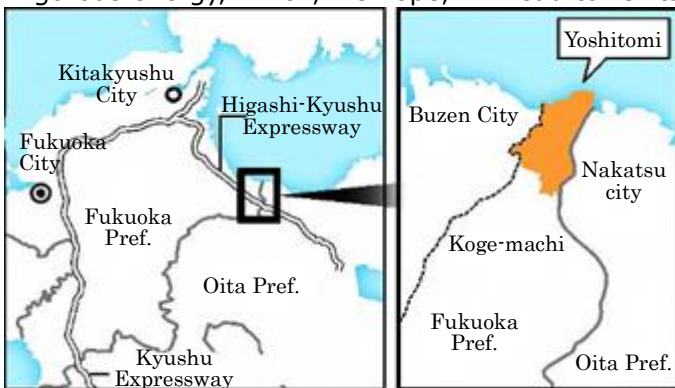

This town is the smallest in Kyushu, with 3km from north to south and 2km from east to west. So, this town is exactly a compact city. Further, the town has moderate nature and moderate population. In fact, this is a comfortable place to live.

In Yoshitomi-machi adjacent to the sea, you can enjoy fresh seafood dishes such as excellent dagger-tooth pike conger (Hamo) hot pot. Moreover, you can see some container shops at the front of the station, marche held regularly, and showa retro beer garden. Though not widely known, Yoshitomi-machi is a place you can enjoy from various aspects.

Further, aiming to a "town with high femininity," Yoshitomi-machi focuses on attraction of female visitors.

Inviting "good luck" and generating "wealth", Yoshitomi-machi is an attractive town with literally lucky town name.

Now, we recruit for the Community-Reactivating Cooperator Squad. Though there are many issues to be solved by the town, you can, as squad member, do anything you like with your free ideas and vigorous energy, which, we hope, will lead to revitalization of the town.
